JOSHUA HAN

Programmer, Computer Scientist

EDUCATION

University of Toronto Schools

2014 - 2018

Graduated in the top 10% of students. GPA 4.0. I was an active member of my school's math and computer science communities. I was the executive of the high school math team, a math tutor for 4 years, and the co-executive of the UTS Programming Club. I was the recipient of the 2015 Global Star Award and the 2016 Dr. T.M. Porter Scholarship in Mathematics for excellence in mathematics.

University of Toronto Computer Science

2018 - Present

Designated as a University of Toronto Scholar, given to only the most outstanding new students to UofT, and awarded \$7500 in scholarship.

WORK EXPERIENCE

Research Intern at Ryerson University CASPAL

June 10, 2019 – August 31, 2019

Worked under Dr. Xiao-Ping Zhang on a research project in the area of signal/data information processing algorithms and applications. During this project I debugged code, wrote documentation, and developed an API and app.
